Software Engineer
American Express

📅 July 2015 - Present   📍 Phoenix, AZ

- Delivered micro-service based data quality framework for American Express Cornerstone big data lake.
- Lead migration of legacy user-interface to a micro-UI based architecture.
- Mentored colleages and interns on modern coding practice and agile methodologies.
- Designed, developed, and maintained inner and open-sourced React and Node libraries.
- Provided rule engine capabilities for the American Express Credit Authorization System in TPF C, React, and Java.
- Developed and implemented strategic roadmaps for migrating legacy front-end and mainframe applications towards more modern technologies and development practices.
- Trained colleages on modern software development practices including automated testing, CI/CD, and functional, maintainable, programming.

Projects

Project 1
Funding agency/institution

- Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris.
